RESUME

Motivated and detail-oriented **Front-End Developer** with a background in software engineering and healthcare IT systems. **Certified in Web Development at MigraCode Barcelona (2024)**, with hands-on experience building dynamic, responsive applications using **React.js, Next.js, and Redux**. Skilled at translating design concepts into interactive, high-performance web interfaces. Passionate about creating user-centric applications and eager to contribute to collaborative development teams. Seeking opportunities as a **Front-End Developer** specializing in **React or Next.js** projects.

Projects:

ChatBot for MigraCode Website
Final project at MigraCode Barcelona. Built a full-stack chatbot application for the MigraCode website using React, Tailwind CSS, Express.js, and MongoDB. Integrated Large Language Model (LLM) capabilities to provide intelligent responses to user queries. Implemented authentication, API integration, and responsive UI for seamless interaction.

Programming Courses Platform | [Live Demo (CodeBloom)](#)
Created a full-stack web application for selling programming courses using React, React Router DOM, Tailwind CSS, and MongoDB. Features include user and admin CMS dashboards for course management, authentication, and payments—with polished navigation, course listings, and admin controls.

SetCoffee – Online Coffee Store | [Live Demo](#)
Created an e-commerce website for selling coffee using Next.js with user and admin CMS dashboards. Features product listings, shopping cart, and order management. Currently working on improving responsiveness and UI scalability.

WORK HISTORY
